SCARBOROUGH Swimming Clubs's Jace Cappleman has been spotted as one of the sport's rising stars.

The 12-year-old's potential is being recognised by her winning selection to attend a British talent camp.

The Graham School pupil was selected for the camp in Leeds after several notable performances over the past year.

Earlier this year she starred at an open meeting in Harrogate where she stormed to a gold medal in the 200m freestyle.

Scarborough club official Sam Greetham said: "It is excellent news that Jace has been spotted this early and she is a credit to the club.

"Over the past year she has demonstrated what she is capable of.

"The opportunity to attend a British camp is great because she will receive some of the best available and it will help her progress.

"She is one of a number of young talents at the club and we wish Jace all the best in the future."
